

# Replacing a Power Distribution Unit

**Part No: ES2-DCPDU-FRU**

## Replacing a Power Distribution Unit on E120 and E320 Routers

---

To replace a power distribution unit (PDU):

1. Power down the router.
2. Remove the clear plastic guard covering the PDU.

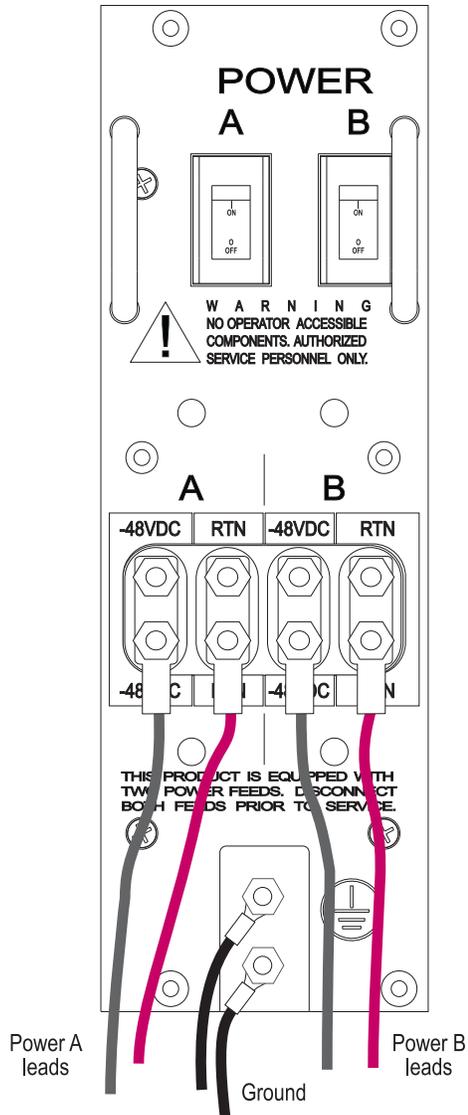

**WARNING:** Be sure the power source is turned off and all power switches are in the OFF position.

---

3. Disconnect the power cables and grounding cables. (See Figure 1.)
4. With an appropriate screwdriver, loosen the screws located at the corners of the PDU. Using two hands, pull the PDU out of the chassis.
5. Install the new PDU and tighten the screws.
6. Reconnect the power cables and grounding cables.
7. Replace the clear plastic guard.
8. Power up the router.

See the *E120 and E320 Hardware Guide* for more detailed instructions.
