Authorized J-Partners and customers can gain access to exclusive information and resources in the Juniper Networks Partner Center and Customer Support Center.

- **J-Partners** - Access to the Juniper Partner Center is available for authorized J-Partners' users only (learn about the [J-Partner Reseller](#) program). You will need your company's 10 digit J-Partner Authorization Code. If your company is a J-Partner Reseller, but you do not have your authorization code, please contact your Juniper Channel Account Manager or call Customer Care.
- **Support Customers** - Access to the Customer Support Center will require either a CS Authorization Code or a product serial number.
- **Punk customers** can now create a new account using either a product serial number or a license key.

**Customer care** (available 24 hours/day, 7 days/week): 800-638-8296 (U.S. and Canada). For all other countries see [Contact Support](#).

Required items are marked with an orange asterisk (\*).

**Use an Authorization Code provided by Juniper or your reseller**

Your user account will be connected to your company's existing records.

**All registrations using an authcode are connected to that authcode as if they were a single company or entity.**

**Use a device or software serial number**

Your user account will not be connected to any existing company records.

If you are using a company email domain (i.e. user@company.com) that uniquely identifies your company, our systems will attempt to connect all members within that domain. Please contact our Customer Care team for any special handling of your account

**Guest Access**

This will grant you limited access to the Customer Support Center. With this Guest Access you may post to J-Net Discussion Forums, download Demo software, and have access to collaboration areas. You will need to have a registered product and support contract in order to gain full access to the site

The screenshot shows the Juniper Networks website's 'Encryption Agreement' page. At the top, there is a navigation bar with links for 'Solutions', 'Products & Services', 'Company', 'Partners', 'Support', and 'Education'. Below this is a 'LOGIN' section with a search bar and a breadcrumb trail: 'Home > Create User Account > Encryption Agreement'. The main content area is titled 'ENCRYPTION AGREEMENT' and features a progress indicator with four steps: 'Step 1: Eligibility', 'Step 2: Account Creation', 'Step 3: Encryption Agreement' (highlighted in blue), and 'Step 4: Confirmation'. To the right, there is a sidebar for 'Additional Tasks' with links for 'Login Assistance', 'Create User Account', 'Edit Account Information', 'Change Password', and 'Reset Password'. Below the progress indicator, there is a section titled 'TO DOWNLOAD ENCRYPTED SOFTWARE' with a warning: 'This agreement is required by US Law to download encrypted software. If you decline this agreement, your account will still be created, however, you will not have access to encrypted software.' The main body of the page is titled 'THE AGREEMENT' and contains the following text: 'You have accessed this webpage either after applying for a new account on behalf of a Juniper Networks customer or partner ("Company") or through an account already opened by Juniper Networks to such a Company. The account (the "Account") has (or will have) a specific username and password associated with it. It is solely for the use of the Company during the term of its support services agreement with Juniper Networks. US law and regulations (including the US Export Administration Act and US Export Administration Regulations) govern the export, "deemed export" and re-export of products, including both hardware and software. Certain Juniper Networks hardware and software products contain encryption. (Juniper Networks products containing encryption are referred to below as "Juniper Networks Encryption Items"). Juniper Networks Encryption Items may be downloaded once Juniper Networks enables your account to do so. Before Juniper Networks enables the account for download of Juniper Networks Encryption Items, you must complete and submit the Certification and Undertaking Regarding Export of Juniper Networks Encryption Items ("Certification and Undertaking"). ANYONE WHO USES THE ACCOUNT TO ACCESS JUNIPER NETWORKS Encryption Items AND SOFTWARE ADOPTS AND AGREES TO THE TERMS OF THE Certification and Undertaking Regarding Export of Juniper Networks Encryption Items ("CERTIFICATION AND UNDERTAKING").' At the bottom, there is a form field for 'First Name' with the value 'test'.
