

Junosphere Temporary Access

Junos Challenge: IP/MPLS

If you don't have a [Junosphere](#) account yet, don't worry! During the time this contest takes place (or, in other words, until we have a winner), you can log into [Junosphere](#) using any one of the following nine credentials:

day_one_contest_1 / 123Junos

day_one_contest_2 / 123Junos

day_one_contest_3 / 123Junos

day_one_contest_4 / 123Junos

day_one_contest_5 / 123Junos

day_one_contest_6 / 123Junos

day_one_contest_7 / 123Junos

day_one_contest_8 / 123Junos

day_one_contest_9 / 123Junos

Then follow the instructions outlined in [this video](#).

Note that if you use one of the nine credentials above, the topology is already started for you. Skip the preliminary steps in the GUI (Manage Capacity, Manage Topologies) and join directly the topology at Access Active Topology.

IMPORTANT: Don't forget to click on Leave (next to Join) in the Junosphere GUI when you are done!

If you have issues logging into Junosphere for this challenge please send an email to vday-one-demo@juniper.net
