

Voorbeeldinstelling:

Met onderstaande voorbeeldinstelling sluit u een Cisco-router aan.

!DHCP pool definitie

```
ip dhcp pool IAS
import all
origin ipcp
dns-server 194.151.228.18 194.151.228.34
```

!WAN interface config

```
interface FastEthernet0
description WAN Link to EVPN CPE
no ip address
load-interval 30
speed auto
full-duplex
pppoe enable
pppoe-client dial-pool-number 1
no shut
```

!LAN interface config

```
interface FastEthernet1
description LAN interface
ip address pool IAS
ip verify unicast reverse-path
load-interval 30
ip tcp adjust-mss 1452
no shut
```

!PPPoE dialer

```
interface Dialer1
description Customer Traffic PPPoE Connection
no shut
ip address negotiated
ip verify unicast reverse-path
encapsulation ppp
mtu 1492
dialer pool 1
dialer-group 1
ppp pap sent-username KPN password 0 KPN
ppp ipcp mask request
ppp ipcp address accept
```

!Default route

```
ip classless
ip route 0.0.0.0 0.0.0.0 Dialer1
```
